FACT SHEET

3810 Digital Wireless Telephone

Overview

The Avaya 3810 digital wireless telephone is a business-ready wireless solution designed to provide on-premises mobility that leverages the power and reliability of your Avaya IP Office communications system. It offers the mobility inherent in a wireless telephone plus access to important features and functionality of a fully connected communications system.

Capabilities

With the Avaya 3810 wireless telephone, you can get multi-line access, put calls on hold, see incoming Caller ID, set up conference calls and check messages while away from your desk. The 3810 wireless delivers much of the functionality of a regular, wired desk phone, including:

- 2-line, 32-character handset with liquid crystal display (LCD)
- 4 displayed operation modes indicating Talk, Ringer On/Off, Battery Low, and Message Waiting
- 4 fixed features keys: Hold, Transfer, Conference, and Redial
- 4 programmable keys to access features on the PBX
- 5 channels, supporting up to 5 simultaneous conversations
- Headset jack for hands-free mobility
- Ringer and handset volume control
- Selectable ring type
- Vibrate alert

The Avaya 3810 wireless telephone uses 900MHz digital technology and works up to 160 feet from the base station. That's 80,000 square feet of coverage!

Benefits

The Avaya 3810 digital wireless telephone keeps you connected anywhere in your office, delivering the quality, features and flexibility you need to make important decisions and meet customer needs.

Avaya Advantage

The Avaya 3810 wireless telephone is optimised for indoor use with 900 MHz digital technology—keeping you connected where even cell phones won't!
